

Airplanes (Sticker Stories)

It's four Sticker Stories books in one, with 300 reusable stickers! Launch into space in a rocket, fly up high in the fastest planes and jets, travel through mountain tunnels on a train, and speed past the finish line in a super speedy race car. Includes Rockets, Airplanes, Trains, and Race Cars.

If you baked a cake from scratch, you'd find a recipe and follow directions. I didn't do that. I reached blindfolded into my mental pantry, saw and wrote, interviewed and memorialized, had an idea and, you know. It's about funny kids and brave veterans, bad situations and redemption, on the right track and off the rails, some fiction but mostly truth. It's my cake; have a slice. Keywords: Offbeat, Introspective, Humorous, Emotional, Incisive, Interesting, Homey, Confounding, Warm, Pointed

A crafting anthology that allows readers to experience the magic of storybooks again in a marvelous new way by recreating and reinterpreting the picture book offers a host of ideas and inspiration and presents lovingly designed story spreads and covers. Original.

The book aims to examine the relationship between exemplification and categorization, using linguistic data from Japanese to better understand how people create and communicate conceptual categories in real-life situations (cf. the notion of ad hoc categories). In the book, exemplification is defined in functional terms as a process through which a speaker signals that a given entity should be construed as representative of a larger category of similar entities. The status of example can thus be encoded by means of dedicated analytical markers that overtly signal the exemplifying relation (e.g. for example), but also by making explicit reference to the larger category from which the examples have been selected. Through a case-study on four Japanese exemplifying markers (ya, nado, tari, toka), this book aims to understand (i) how examples are used and encoded by speakers to make reference to conceptual categories, (ii) what types of categories speakers can create and communicate by means of exemplification, (iii) how the relationship between exemplification and categorization can be used by speakers to achieve specific discourse effects, such as vagueness and politeness.

The True Story of Curtis Turner: A Racing Legend (A Two-Time Hall of Famer) by Dennis Treece Curtis Turner won an incredible 360 races in various stock-car racing circuits from 1946 to 1965, and is widely recognized as one of the greatest dirt-track drivers in history. A true pioneer of the sport, Turner went from running moonshine for his father as a kid to earning the distinction of NASCAR's first driver to grace the cover of Sports Illustrated. A 1992 inductee into International Motorsports Hall of Fame, Turner is without a doubt an all-time racing legend. It was more than Turner's winning ways that cemented his legendary status with racing fans and fellow drivers. With a swashbuckling style both on and off the track, Turner was a partier, a playboy, and an

innovative entrepreneur, who had an eager but edgy spirit that “drove him through one of the most cantankerous lives ever lived.” Told through the eyes of best friend and business associate Dennis Treece, *The True Story of Curtis Turner: A Racing Legend (A Two-Time Hall of Famer)* reveals never-before-told stories from Turner’s life, a life Treece describes as “momentous havoc.” From outrunning police during his moonshine days to out-racing NASCAR’s best drivers (including one year where he won a record 25 NASCAR events), Turner’s skill and moxie never waned behind the wheel. He earned the nickname “Pops” for his propensity to “pop” other drivers on the track. Turner attempted to organize a drivers’ union in 1961, earning a lifetime ban from NASCAR. (The ban was lifted in 1965.) Yet, off the track was where the real mayhem occurred. In one tragically foreshadowing story, Treece recounts one of Turner’s several brush-with-death experiences in the cockpit. An avid pilot—an indispensable hobby after he lost his driver’s license—Turner and a few business associates flew from Philadelphia to Charlotte in a brutal snowstorm. Landing on a snow-packed runway, his plane was estimated to carry 150 pounds of ice. After the precarious landing, Turner merely said to his passengers, “Hell of a day, ain’t it boys!” Dennis Treece also recounts Turner’s entrepreneurial zeal. A self-made millionaire buying and selling timberland, Turner often sought experimental ways to supplement his income, including his ill-fated attempt to broker a deal for The Ford Motor Company to purchase advertising space on U.S. Currency. Treece also poignantly recounts Turner’s final plane crash on October 4, 1970, the day “Lady Luck kissed my hero goodbye.” *The True Story of Curtis Turner* is a tale of a remarkable life and an ode to a missed friend.

Why do we have airlines? How were they created? Was TWA Flight 800 an accident? How safe are airplanes, and why are they safe? What jobs are there in commercial aviation? This book provides answers to these questions

and many more. Understanding how and why an airline is started, structured, and regulated provides the flying public with the answers to why you are safe when you fly. For those interested in becoming an airline employee, jobs are listed that can be pursued. Job descriptions are included not only for those interested in working in aviation but those employees working in the industry desiring to be promoted. The book offers insight as to why the government regulates and controls airlines with references to the legislations that prompted these controls and regulations.

The story tree is a book by a five-year-old. The stories in this book are all about the insight of a child and how he sees the world around him. Kids would surely love to hear from the same age Author.

Fish Bites Cop! Stories To Bash Authorities is a whole trunk of surprises. A collection of horror, dark crime, pulp, and slipstream lampoonery that gleefully rips on police officers, security guards, organized religion, firefighters, police officers, bounty hunters, dyslexic paramedics with dog complexes, police officers, military, middle management, and even more police officers. Bad Cop movies are usually just bad cop movies. It's time they paid for it. EDITORIAL REVIEWS "Bizarre and hysterically twisted, these stories crisscross between the satirical and the pulpy at a maddening pace. I endorse this crazy-ass book! Wild ride. David James Keaton is a writer to keep an eye on." --Frank Bill, author of Donnybrook and Crimes in Southern Indiana "This is exquisite writing and fast-paced storytelling--the peanut butter and chocolate of fiction. Bet you can't read just one." --Stephen Graham Jones, author of The Last Final Girl and Growing Up Dead in Texas "If you're a cop, have ever known a cop, or been arrested by one, or even if you're just one of those people who are scared of cops, FISH BITES COP! is the collection you must read. Also if you like watching, catching, or eating fish. Or cops." --Scott Phillips, author of The Adjustment and The Ice Harvest "Don't expect any nice-making from David James Keaton. FISH BITES COP! is full of people acting badly, and it's as fun to watch them self-destruct as it is to watch a ten-car pileup on the interstate. Trust me: you'll enjoy your couple of hours rubbernecking." --Kyle Minor, author of In the Devil's Territory "David James Keaton by his own confession has a problem with authority. You might say he has a hard-on for cops, a hard-on of the nightstick variety he brandishes with abandon, gleefully bashing cliches with his own savvy brand of literary mayhem. Keaton goes Dirty Harry on the cop shop of conventional crime fiction. Heads roll, donuts get gored. It's so good it should be illegal." --Randy Chandler, author of Dime Detective and Bad Juju "Keaton's at his manic best in this collection, populated by prize winners and barn burners, each one coated in his special brand of pulp sauce. These are stories to read by the bonfire as the world burns. In the worlds Keaton conjures here, spinning with barely repressed anarchy, that's the general drift." --Court Merrigan, author of Moondog Over the Mekong "David James Keaton holds the lovechild of convention and expectations down to the hard, concrete floor, puts his hand over its mouth, and slits its throat. Each of the stories in this collection help sop up the blood, his hands wiped cleaned by

the time the last story is wrought and reeking of his touch." --Michael Czyzniejewski, author of *Chicago Stories* "With a command of contemporary slang force-bred with imagery, Keaton is one of the strongest voices in American fiction today. The first story alone is one I will read forever."
--Jason Stuart, author of *Raise a Holler* "Reading these stories feels like the guys in the garage at the St. Valentine's Day Massacre probably felt as the bullets struck them. They will rip you up, tear you apart, and when you're done, you'll be exhausted with emotion but know that you've been in the presence of greatness." --Les Edgerton, author of *The Rapist* "Quite simply, David James Keaton is a twisted genius, and you read his work at your own risk, risk of a neural or moral melt-down. Keaton's stories are as sickly exuberant and gargantuan as gothic dirigibles, tall tales of teleportation into urban myth and mystery, post-truth, anti-reality, they break every rule of regular fiction and good taste." --Chuck Kinder, author of *Last Mountain Dancer* "It's Technicolor Noir." --Charlie Trout, reporter for the Pittsburgh Pulp Exchange

What are a good amount of adopted people (adoptees) feeling and saying about adoption today? You will be surprised. Adopted people are diverse individuals with differing points of view, yet have been stigmatized into one type of people by the industry leaders. Even though we come from various backgrounds, we've been stereotyped as if all of us are somehow ungrateful if we don't show enough appreciation, labeled as if having Reactive Attachment Disorder (RAD) when we don't bond as expected, or too negative when we push for answers. This little book proves that we are an assorted population with varying backgrounds, and we should not be reduced to the label of anti-this or anti-that when we ask questions—questions that make the industry uncomfortable. Rather, we should be given the right to ask questions about our background and even gain access to our adoption documents when we inquire. We have the right to ask questions—even if it makes adoption agencies uncomfortable. We should have the right to know if we have blood-related sisters and brothers, aunts, or uncles. None of us should have to go to our graves without having the opportunity to develop friendships with our next-of-kin—if we so wish. This book, containing excerpts from Janine Myung Ja's "Adoption Books for Adults" collection, is completely biased on the rights of adopted people and void of influence from adoption authorities.

No one else ever took a trip like this. Nearly 600 trips, actually. "But who cares," I thought, when first approached to edit the manuscript for this book "... about flying into every little airport in Indiana, then moving on to those in surrounding states?" Pilots? Perhaps. Even so ... I'm a writer, not a pilot. And Bob Hechlin is a pilot — not a writer. Except ... Bob has an insatiable curiosity about people, places, events, you name it. To him, an airport is more than a name or a spot on a map. He's a great listener. He has ears and eyes for detail — "nuggets" that many people either overlook or don't connect with other nuggets like dots on a page, to create picture after picture after picture. And Bob has a gift for gab. "Storytelling," if you will. So

if you believe (as I do) that “writing is talking when you can’t be there,” give this book a listen. Hear things you never knew about John Dillinger, Al Capone, a WWII pilot named O’Hare ... back-road encounters on Mackinac Island and not flying under the bridge ... out-maneuvering storm clouds ... the Oshkosh air show ... close-knit neighborhoods with hangar-garages ... airports in Ohio ... police in Gary, Indiana ... the link between Northwestern University and a historic Lake Michigan passenger-ferry tragedy ... how a teenager’s Happy Birthday flight launched a career ... and more. Much more. Some people read books from page 1; the opening line hooks them. Others check the ending first. (“If I like how it ends, I’ll like getting there.”) With ‘Honey,’ feel free to start in the middle; pick a page — any page. Chances are, you will quickly be drawn in and pulled onward from one mini-tale to the next. And at some point, you’ll say “Geez, let’s go back and read the rest!” I did. C’mon along for the ride. Bob makes even the shortest hop a fun trip.
Richard E. Schingoethe

Busy airport scenes provide plenty of scope for imaginative stickering. Scenes include arriving at the airport, the departure lounge and the runway, ready to be filled with the planes, people, luggage carts and vehicles and providing an scene to talk about the different features and functions of an airport.

For those of us who love The Rocky and Bullwinkle Show, these names conjure up memories of some of the wittiest, most inspired, and relentlessly hilarious half-hours of animation ever produced. There was a kind of gleeful magic to the shows, a cumulative joy that transcended the crude animation and occasionally muddy sound, and it's this quality that was the essence of the legendary Jay Ward and Bill Scott. Jay Ward was the magnificent visionary, the outrageous showman who lobbied Washington for statehood for Moosylvania, and invited the press to a picnic on the floor of the Plaza Hotel's august Grand Ballroom. Bill Scott was the genial, brilliant head writer, coproducer, and all-purpose creative whirlwind, often described as the "soul" of the shows. In fact, Scott even provided the voices for most of the star characters, giving life to Bullwinkle J. Moose, Mr. Peabody, Dudley Do-Right, and George of the Jungle. From their tiny, oddball animation studio, Jay Ward Productions, they created some of the most memorable animation of all time, and gave birth to a family of characters whose undying popularity has cast

them forever into the pop culture firmament. With their distinctively unorthodox, artist-friendly philosophy, Ward and Scott attracted some of the most talented writers and voice actors in the industry, and for a time, Jay Ward Productions was a kind of Camelot of cartoons. Now, through exclusive interviews with Bill Scott, Tiffany Ward, June Foray, and dozens of others intimately involved with the Ward epoch, as well as access to original scripts, artwork, story notes, letters, and memos, Keith Scott has created the definitive history of Jay Ward Productions, including episode guides and voice credits for all the Jay Ward cartoons. From the first "Hey Rocky, watch me pull a rabbit out of a hat!" to the last "Watch out for that tree!", The Moose That Roared is not only the record of a legendary chapter in animation history, but also the story of a rare and magical relationship between two artists who were wildly, exuberantly ahead of their time, and the fascinating story of the struggle to bring their vision of bad puns and talking animals to unforgettable life. A down-to-earth guide for anyone traveling overseas with children, whether on a two-week family vacation or a long-stay posting in the developing world.

"[Stanley is] as clear-eyed about music as he is crazy in love with it." —Mikael Wood, Los Angeles Times A monumental work of musical history, Yeah! Yeah! Yeah! traces the story of pop music through songs, bands, musical scenes, and styles from Bill Haley and the Comets' "Rock around the Clock" (1954) to Beyoncé's first megahit, "Crazy in Love" (2003). Bob Stanley—himself a musician, music critic, and fan—teases out the connections and tensions that animated the pop charts for decades, and ranges across the birth of rock, soul, R&B, punk, hip hop, indie, house, techno, and more. Yeah! Yeah! Yeah! is a vital guide to the rich soundtrack of the second half of the twentieth century and a book as much fun to argue with as to quote.

Never one to color inside the lines, the brilliant inventor Carl Collingwood is positive that his new aircraft will trigger waves of influence worldwide, changing the course of aeronautics forever. Investigative journalist Juli Gables is granted exclusive rights to cover the first flight of Collingwood's groundbreaking aircraft. But when the plane inexplicably crashes and kills its creator, Gables finds herself witness, and reporter, to a tragic story. Using her investigative skills and sharp observations, Gables resolves to unearth the cause of the crash for the sake of Collingwood's widow. She learns that it was not a mechanical malfunction that killed Collingwood; someone wanted him dead. With her newfound knowledge, Gables may be in danger, too—especially when this investigation leads her all the way to the White House. As she attempts to get closer to the truth, Gables is dogged at every step by disruptive parties, including the police and fellow reporters. As her investigation continues, she uncovers a plot to assassinate the President of the United States when he is scheduled to give a speech at the United States Military Academy at West Point. When authorities do not listen to her as she voices her claims, it seems as if Gables will have to take matters into her own hands in order to prevent imminent tragedy.

"Ogbanje" Twins and Other Stories By: Keemholems Ojei Ejime and Onyishi were born identical, and quite brilliant, twins.

Their birth process was witnessed by their helpless, impoverished father in their sitting room. The twins survived, but their mother died just a few minutes after giving birth to them. This tragedy could have been a mirror of their mother's nightmare a few nights before, in which she was in communication with her late father who laid a curse upon her. The pretty twins grew up motherless under the tutelage of their father, Chris, and a maid. Their excellent results in pure sciences in their final high school exams catapulted them into the limelight from obscurity. They secured double scholarships from the state and federal government to study Electronics/Computer Engineering and Medicine respectively, in Cambridge University, Massachusetts, USA. But, by the impulse of man's inhumanity to man, the influence of fate and what appeared like the "Ogbanje" spirit, wriggled out their ugly heads, and needed God's urgent intervention. In this direction, the

awkwardness of man's wickedness to man dimmed a somewhat bright light.

An easy-to-use source for librarians, students and other researchers, each volume in this series provides illustrated biographical profiles of approximately 75 children's authors and artists. This critically acclaimed series covers more than 12,000 individuals, ranging from established award winners to authors and illustrators who are just beginning their careers. Entries typically cover: personal life, career, writings, works in progress, adaptations, additional sources. A cumulative author index is included in each odd-numbered volume.

From the acclaimed author of *Purge* ("a stirring and humane work of art" —*The New Republic*) comes a riveting, chillingly relevant new novel of occupation, resistance, and collaboration in Eastern Europe. 1941: In Communist-ruled, war-ravaged Estonia, two men are fleeing from the Red Army—Roland, a fiercely principled freedom fighter, and his slippery cousin Edgar. When the Germans arrive, Roland goes into hiding; Edgar abandons his unhappy wife, Juudit, and takes on a new identity as a loyal supporter of the Nazi regime . . . 1963: Estonia is again under Communist control, independence even further out of reach behind the Iron Curtain. Edgar is now a Soviet apparatchik, desperate to hide the secrets of his past life and stay close to those in power. But his fate remains entangled with Roland's, and with Juudit, who may hold the key to uncovering the truth . . . Great acts of deception and heroism collide in this masterful story of surveillance, passion, and betrayal, as Sofi Oksanen brings to life the frailty—and the resilience—of humanity under the shadow of tyranny. This eBook edition includes a Reading Group Guide.

His Message Would Be Heard Around The World No one guessed he would change the world. A simple country farm boy once prayed that God would use him...and prayed...and prayed. And God did use him, beyond what he ever imagined. He grew into a man who would lead millions of people to Christ, a man who would be known as the greatest evangelist of our time. Come read the story of Billy Graham and follow his life from his days as a boy, who wasn't so great in school, to a man who would teach the world the greatest lesson of all: how to know and live for Christ.
